DETAILED ACTION

This Office Action is in response to the amendment filed 28 July 2004.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Title:

Semiconductor Package

Allowable Subject Matter

Claims 27, 29-40 and 56-60 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 27 and 29-40 are allowable because prior art does not show alone or in combination along with the limitations of the independent claims such as, pillared electrodes joined to one upper face electrode and heat radiating plate with the leading ends of the pillared electrodes extending to an uniform height relative to one another.

Art Unit: 2822

Claims 56-60 are allowable because prior art does not show alone or in combination along with the limitations of the independent claims such as, leading ends of pillared electrodes joined to one upper face electrode and heat radiating plate with the leading ends are equally spaced from the surface of the heat radiating plate relative to one another.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
